

Introducing the

ΔLTΔ

Design. Print. Dream.

Print Your Dreams

The Silhouette Alta® 3D Printer is unlike any Silhouette machine on the market. Instead of cutting 2D materials, the Alta prints a 3D design from the bottom up.

A woman with blonde hair and glasses is looking at a computer monitor. The monitor displays a 3D modeling software interface. In the center of the screen is a green, stylized dinosaur model standing on a circular grid base. The software interface includes a menu bar at the top with 'File', 'Edit', 'View', 'Object', and 'Help'. Below the menu bar is a toolbar with various icons for editing and viewing. On the right side of the screen, there are buttons for 'DESIGN', '3D PRINT', and 'STO'. A small 3D coordinate system icon is visible on the right edge of the screen.

Customize Your Life

.....

The Alta is part of a seamless design ecosystem that Silhouette has become known for. Simply select a design from our Design Store, or create one yourself with the included 3D software.

A close-up photograph of a 3D printer's nozzle, which is a brass-colored metal tip, positioned just above a brown, textured sculpture of 'The Thinker' by Auguste Rodin. The printer's body is white and black, and the background is a soft, out-of-focus white. The sculpture is printed in a brown filament with a visible layer-by-layer texture.

Create it Your Way

.....

Resize and customize your design, select your color of filament, and then print something amazing!

Silhouette Alta Specification

Printer Type	Delta Style
Print Volume	124 mm x 124 mm x 130 mm
